Preface

This compendium of e-resources/databases subscribed at NMIMS University, and other SVKM's institutions have been prepared to

This compendium of e-resources/databases subscribed at NMIMS University and other SVKM's institutions has been prepared to inform all potential users like the students, faculty members and the researchers about the availability of these resources in a single document. The compendium gives a snapshot of each e-resource/database, what it offers and how to access it. Hope that the intending user will find it convenient to locate the particular e-resources relevant to their area of interest and get the information to access specific e-resource.

The index of the compendium indicates the e-resources/databases subscribed by various institutes of SVKM. Many of these databases are shared by other institutions, even though they may be subscribed by one of our institutions. These shared resources are also indicated in the index.

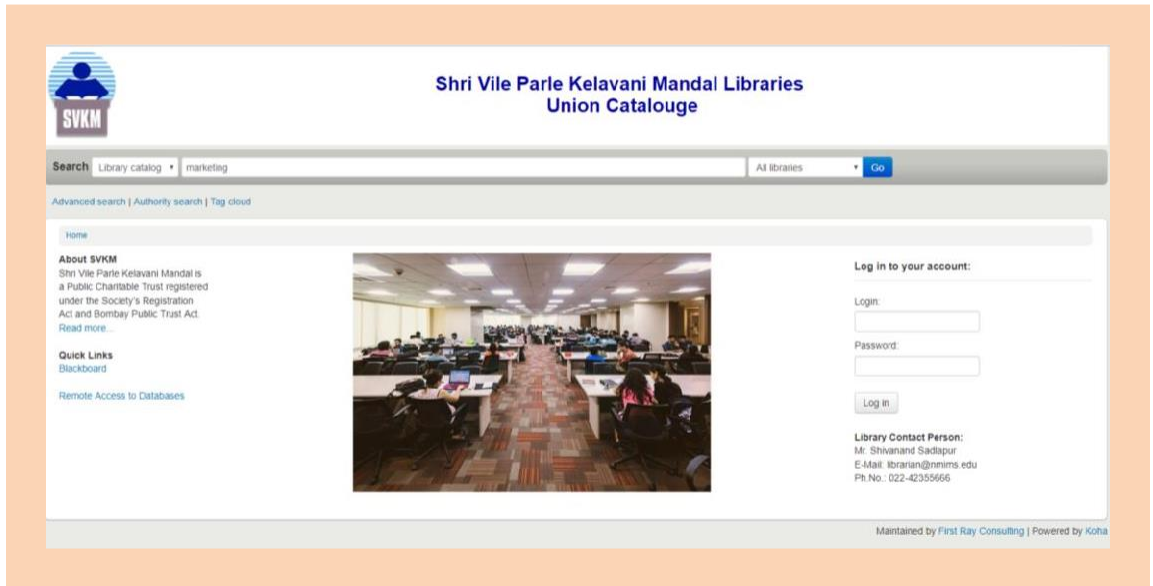

This compendium is an inventory of the e-resources and is not a complete user manual. For any details or assistance in respect of any of these resources, the intending user is advised to contact the Librarian of the particular library that subscribes to the databases. All help, including initial training, will be given there.

It is hoped that the faculty members, students and researchers of our institutions will find this helpful compendium and make the best use of these resources for their respective academic pursuits.

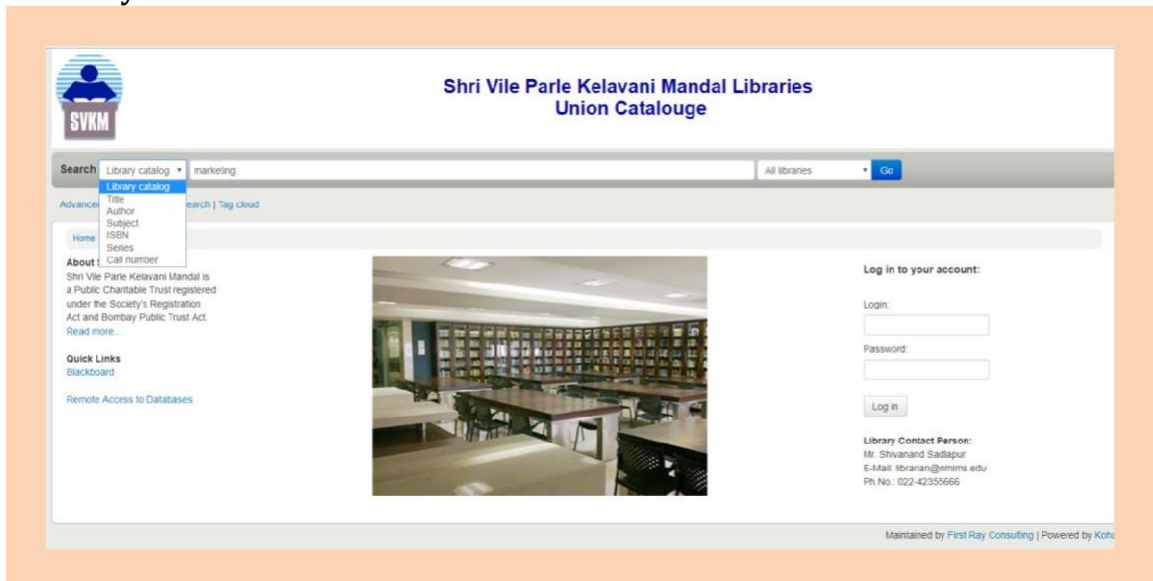

Library Automation

At SVKM's NMIMS libraries, we are using Koha for library automation. Users/readers can access library OPAC (Online Public Access Catalogue) through the following URL

OPACURL: <http://library.svkm.ac.in/>

Basic key word search:

With the given drop-down menu bar, you can browse the documents by Author, Title, Subject, etc., options for logged in school. For advance searching, the 'Advance search' option is available. This can be used if you know

The screenshot shows an advanced search interface with the following components:

- Navigation:** "Advanced search | Authority search | Tag cloud" and "Home | Advanced search".
- Search for:** Three rows of "Keyword" dropdown menus followed by text input fields.
- Buttons:** "Search", "More options", and "New search".
- Item type:** A section with "Limit to any of the following:" and two icons: "Book" and "REFERENCE BOOK".
- Filters:**
 - Publication date range:** "Date range:" with a text input field. Example text: "For example: 1999-2001. You could also use '-1987' for everything published in and before 1987 or '2008-' for everything published in 2008 and after."
 - Language:** "Language:" with a dropdown menu set to "No limit".
 - Location and availability:** "Library:" with a dropdown menu set to "All libraries" and a checkbox for "Only items currently available for loan or reference".
 - Sorting:** "Sort by:" with a dropdown menu set to "Relevance".
- Buttons:** "Search", "More options", and "New search".

MapMyAccess

MAPMyAccess is a Remote Access Solution that is specifically designed to facilitate off-campus and anytime-anywhere access to digital content that is owned by a specific library. Users have the privilege of accessing library content from any device in a seamless manner by leveraging secured cloud hosting services that have a guaranteed 99.99 % uptime. MAPMyAccess enables access to world- class library suite specifically designed for effective management of libraries. Connecting users and e-content anywhere and anytime on any device in a secured environment makes it the best option for any library.

Some of the **Key Features** are as:

1. Single point, easy to access all of your subscribed online e-Resources content from anywhere, anytime and on any device.
2. Securely cloud hosted proxy services with 99.99% uptime all the time
3. Dedicated static public IP address with proper sub domain name
4. All hosted services will have a valid SSL certificate for the subscription period.
5. All content provider web URLs will be resolved through only 2 ports
6. Easy to use Admin panel for the library to navigate usage reports, user management, publisher management etc.
7. Supports user authentication such as OAuth of Outlook and Google, LDAP, Koha SIP, ODBC with any RDBMS, Google SAML, IMAP
8. It's centrally managed cloud services by MAP Systems
9. A Proprietary Product of MAP Systems.

Click on Login. Select Option MAPMYACCESS

Electronic Journal Databases

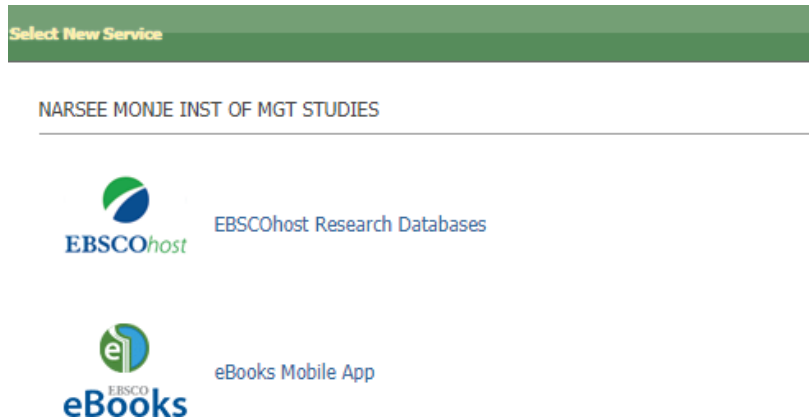

EBSCO

This database, designed specifically for social science institutions, contains 2,950 full text scholarly journals and business periodicals covering management, economics, finance, accounting, international business, and much more. Business Source® Premier contains full text from the world's top business journals and is particularly strong in both management and marketing, country economic reports, expanded indexing and abstract back files for 300 top scholarly business journals back to 1965 or the first issue published (whichever is more recent). It also contains PDF images for the great majority of journals; many of these PDFs are native (searchable) or scanned in color. In addition, there are 5,000 substantial company profiles, videos and 1,600 industry reports.

URL: <http://search.ebscohost.com/>

Once click on given EBSCO URL choose EBSCOhost Research Database.

Choosing Databases to Search

To search a database:

1. Click directly on the database name, e.g., ***Business Source Premier***.
The search screen appears.
2. You can use the default search screen, or choose another by selecting it from the search screen tabs.

Users are able to receive database-specific help from within the search screens and the Result List. Beneath the database names at the top of each of these screens, there is a link entitled **Database Help**. You can also get to database-specific Help by clicking on the **More Information** link from the Choose Databases Screen.

Using the Toolbar

EBSCOhost® offers a toolbar for functions that are available at all times during a search session. There may be more options available, depending upon the database you are searching.

The function of each tab and button is explained throughout this guide. Using the Utility Toolbar

- **NewSearch**–Returns you to the default search screen.
- **ViewFolder**–Displays results placed in the folder.
- **Preferences** – Allows you to change the format and sorting of your Result List.
- **Help**– Opens the Online Help Manual.
- **Exit/Home Library**– This will only appear if no home library graphic and URL are available. Click **Exit** to logout of EBSCOhost.
- **HomeLibraryGraphic**– Click on the library graphic or logo, to return to the library homepage.

Using the Basic Search Screen

Performing a Basic Search

To perform a search, enter your term(s) in the **Find** field and choose the **Search** button. Choose the **Clear** button to remove any term(s) located in the **Find** field. The **Clear** button does not remove any limiters selected in the Refine Search Tab.

You may use Boolean operators, field codes, truncation (*), wildcard (?) and phrase searches in quotes when performing a Basic Search. All results are in reverse chronological order, beginning with the most current item. Boolean Search techniques are explained in the next section.

Search Options

Limiters and Expanders may be used to narrow or broaden a search.

Using the Advanced Search Screens

There are three Advanced Search Screens available. They are Single Find Field, Single Find Field with Search Builder and Guided Style Find Fields.

All three Advanced Search Screens have the following options available:

- **Limiters:** The availability of limiters differs from database to database. Examples of limiters include: Full Text, Scholarly (Peer Reviewed) Journals, Publication and Date Published.
- **Expanders:** The availability of expander's differs from database to database. Examples of expanders include: Also search within the full text of the articles, include all search terms by default, Also search for related words.
- **Special Limiters** are database-specific and will appear in separate sections when conducting a multi-database search.

EPW

Economic & Political WEEKLY

The Economic and Political Weekly, published in Mumbai, is an Indian institution with a global reputation for excellence in independent scholarship and critical inquiry. First published in 1949 as the Economic Weekly and since 1966 as the Economic and Political Weekly, EPW, as the Journal is popularly known, occupies a special place in the intellectual history of independent India. For more than five decades, EPW has remained a unique forum that, week after week, has brought together academics, researchers, policymakers, independent thinkers, members of non-governmental organizations and political activists for debates straddling economics, politics, sociology, culture, the environment and numerous other disciplines.

Basic Search

The screenshot displays the homepage of the Economic & Political Weekly website. At the top, the logo 'Economic & Political WEEKLY' is prominently featured in red and black. To the right of the logo are buttons for 'Subscribe', 'My Account', and 'Logout', along with the ISSN (Online) - 2349-8846. A green notification bar below the header states: 'Welcome NIMMS. You have been automatically logged into Economic and Political Weekly. You may also log in as another user if required.'

The main content area is divided into several sections:

- Archives:** Lists '1966-Present' and '1949-1965'.
- Sections:** A vertical menu on the left includes 'Home', 'Editorials', 'Commentary', 'Book Reviews', 'Perspectives', 'Special Articles', 'Special', 'Review Issues', 'Special Issues', 'Web Exclusives', 'Reports From the States', 'Clippings from the Past', 'Podcast', and 'More'.
- OT: Live Press:** Features an article titled 'Naxalism and After: Humaneness and Contradictions – India's Maoist-inspired Naxalites' by Alok Shah.
- Commentary:** Features 'Where to be Left Is No Longer Dissidence – A Reading of Left Politics in Tripura' by R K Debbarma.
- Special Articles:** Features 'Lives in Debt – Narratives of Agrarian Distress and Farmer Suicides' by Ajay Datta, Sanjay Chakrabarty, and others.
- Perspectives:** Features 'Affirming the Syrian Revolution – Experiments in Autonomy' by Anurag Divakar.
- Web Exclusives:** Lists several articles including 'Abhinaya Ramesh / Reflections on the Chaic Nagpur Campaign', 'Mahum Shabir / Bound Spaces: Or Papier Mâché Boxes and Legal Documents', 'Adhrita Sharma / Why Women's Studies?', 'Aditi Roy Chatak, Abir Dasgupta / Raising the Bar for India's Power Sector', 'Vaiju Naravane / How France Chose Macron: A Vote against the Extreme Right', and 'Rama Devi, Bhim Reddy / A Misplaced Trust: Echi Municipal Elections 2017'.
- Search:** A search bar with a 'SEARCH' button and an 'Advanced Search' link.
- Recent Issues:** A section for 'Vol-62, No-21, 27 May 2017' with a 'Contents' link. The contents list includes 'A Resurgence Act', 'A Half-Baked Society', 'Caste Discrimination in India', and '25 Years of the Left Front in Kerala'.

Advance Search

The screenshot displays the website's header with the logo "Economic & Political WEEKLY" in red and black. Navigation links for "Subscribe", "My Account", and "Logout" are in red buttons. The ISSN (Online) is 2349-8845. On the left, there are "Archives" (1966-Present, 1949-1965) and "Sections" (Home, Editorials, Commentary, Book Reviews, Perspectives, Special Articles, Special, Review Issues, Special Issues). The main content area is titled "Advanced Search" and includes fields for Title, Keywords, Abstract, Author, and Date (yyyy). Search criteria are set to "Contains all words" for Title and Abstract, and "Is equal to" for Date. "SEARCH" and "RESET" buttons are at the bottom. On the right, there is a search bar, an "Advanced Search" button, and a "Recent Issues" section for Vol-52, No-21, 27 May, 2017, with a "Contents" link and a thumbnail of the journal cover.

JSTOR

JSTOR offers high-quality, interdisciplinary content for all. It includes over one thousand leading academic journals across the humanities, social sciences, and sciences, as well as select monographs and other materials valuable for academic work.

The entire content is full-text searchable, offers search term highlighting, includes high-quality images, and is interlinked by millions of citations and references with continues online Update.

URL: <http://www.jstor.org/>

1. SearchPage(JSTORHomePage)

Access to <http://www.jstor.org/>

- ① SEARCH : Keyword Search
- ② BROWSE : Journal Browsing
- ③ You can Search on the first page of JSTOR

2. 「SEARCH」

① BasicSearch

Enter your search terms into the search box.

- To search an exact phrase, use Quotation Marks ("") For example : "business analysis"
- You can limit by discipline.
- Combined search terms with AND, OR, NOT For example : labour OR labor
- Narrow search results with field abbreviations. For example : au:Smith (author)
: ti:"paraboicequations" (title) Field

Abbreviations ti: title (general) ta: item title rt: title

of reviewed work

au: author (general) aa: item author ra: author of a reviewed work ca: illustration

captionab: item abstracts so: (jo:) journal title

vo: volume no: issue or number

sn: (in:) ISSN For example : sn:00219347, in:00219347

② AdvancedSearch

You can select many kinds of limited terms.

A Search Terms

- Search Fields:

Full-text, author, item title, abstract, caption

- Enter the search terms same as Basic Search. AND, OR, NOT, ti, au, ca

To find certain words near each other in an article, enter each word in a separate box, then chose

Near 5, 10, 25 from the drop-down list on the far right.

B Limited Search

- Type: You can limit four type of document. Article, Review, Editorial, Pamphlet
- Date Range: To find an article published within a certain date range. Enter the range of dates as 1939, 1939/05, 1939/05/01
- Article Language: To find an article in a certain language.
- Discipline(s) and/or Journal(s): To find an article in specific journals or disciplines. Use the checkboxes next to the discipline and/or Journal name, or enter a journal title in the box.

BROWSE

Browse by Discipline: Disciplines listed alphabetically.

Browse by titles : Jump to journal title.

Browse by publisher : Journals listed under publishers' names.

The screenshot displays the JSTOR website's browsing interface. At the top, the navigation bar includes 'JSTOR', 'ARCHIVE', 'BROWSE', 'ABOUT', 'PARTICIPATE', 'RESOURCES', and 'ABOUT'. Below the navigation bar, there are three tabs: 'Browse by Discipline', 'Browse by Title', and 'Browse by Publisher'. The 'Browse by Discipline' section is active, showing a list of disciplines with their corresponding JSTOR coverage dates and links to reports. The disciplines listed are African American Studies (1942-2004), Black American Literature Forum (1976-1992), and Negro American Literature Forum (1967-1979). Below this list, the 'The Journal of Negro History' is featured, with a thumbnail image of the journal cover and a list of metadata including ISSN, EISSN, CODEN, and JSTOR coverage dates. A red box highlights the 'Start of the Journal' link in the right sidebar.

Discipline	JSTOR Coverage	Link to Report
African American Studies (13 titles)	1942-2004	Link to Report
Black American Literature Forum	1976-1992	
Negro American Literature Forum	1967-1979	

The Journal of Negro History

ISSN: 0022-2967
EISSN: 1744-0019
CODEN: JNHIDJ
JSTOR Coverage: 1916-2011
Maring Wall: 1916-1918
JSTOR Collection(s): [African American Literature](#)
JSTOR Member(s): [Black Studies Center](#)

BROWSE THIS JOURNAL

Start of the Journal

This database is central resource for all. Covering more than 160 subject areas. ProQuest Central is the largest database of periodical content.

This Includes:

- Peer Reviewed Journals/Trade Publication/Magazine/Newspapers like MIT Sloan Management, European Management Review, Journal of Business ethics, etc.
- Business Monitoring International - 682 plus various countries sector reports & their Forecast and Corporate Financial Weekly a core mergers & acquisition publication
- Economic Intelligent Unit (EIU) - EIU Views wire, Country Forecast, Country Finance Forecast, Global Commodity & Raw Material Forecast
- Dissertation&Thesis- More than 30,000 Fulltext Dissertation&Thesis
- SSRN Papers- More than 15000 The Social Science Research Network papers
- Collection of Annual Reports & Business Cases/Case Study & Country profiles

URL: <http://search.proquest.com/>

Search for more information with ProQuest Central's new, more powerful search options

From the homepage, you may conduct a search in several different ways:

1. Enter a **QuickSearch** that searches across *all* of your ProQuest subscriptions.
2. Select from the **SubjectAreas** icons to search by category or:
 - 2a Choose a single subject area.
 - 2b Explore databases by hovering the mouse over the subject area.
3. Choose **AdvancedSearch** to construct complex searches and select specific limiters.
4. View the **Publications** list, and search directly in a selected title.
5. View the **Databases** list to select a single resource or combine databases for a custom search.
6. Login to your **MyResearch** account.

* Subject areas and topics may be different based on your ProQuest subscriptions.

Find relevant information from a wider variety of sources!

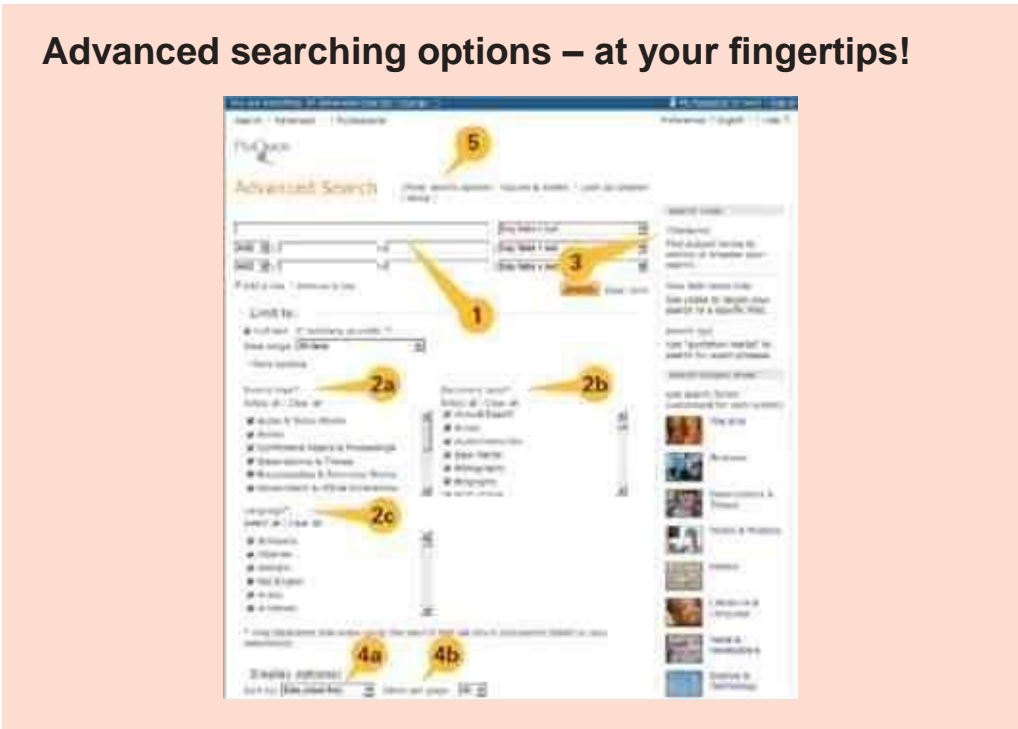

The Results page offers users the ability to:

1. **Modify** search options.
2. **Set up alerts, Create RSS feed, save search** right from the Results page.
3. **"Search within" results** to narrow results, search using suggestions from **Smart Search**, or search for **figures and tables**.
4. **Add items to My Research, Email, Cite, Export references** from the Results page.
5. **View Results List** which displays Articles, Books, Dissertations, etc. Click to view using Citation / Abstract, Full text, Text with Graphics, or PDF formats. Determine the source type by the **icon** (see also Source Type in column to the right).
6. **Sort or narrow** results by source type, subject heading, date, etc. in the **collapsible sidebar**.
7. Identify hit-terms in context more easily with **hit-term high lighting**.
8. **Preview** the contents of the full-record in a light box.
9. **Mark items** to save, print, or email or to store in My Research to access later; create a shared list, etc.
10. **Discover** images, charts, graphs, maps, etc. found within the results quickly from the results page. Click the image to open.

The Advanced Search page:

- 1. Multiple **query boxes** offer the ability to create more complex searches and limit query fields to specific indexed information* such as Author, Title, or Subject.
- 2. Further define the search query with additional selections* available in the **Limit to** area, such as:

2a Source Type

2b Document Type

2c Language

3. **Search Tools**, such as Thesauri,* Field Code lists,* Search Tips, and Subject Areas, are available in the **collapsible sidebar**.

4. Pre-select **Display Options** before viewing the Search Results Page:

4a Sort by

4b Items per page

5. **Other Search Options** allow for searching for Tables & Figures, Look up Citation, Command Line search, or Text Match search.

*Determined by the database(s) selected for searching.

Pharmacy Database

Pharmacology, Toxicology and Pharmaceutical Science

This database offers the world's most influential 110 full-text pharmacology journals published by Elsevier from 1995 to the present.

URL: <http://www.sciencedirect.com>

Register and obtain username and password.

User Manual

Perform a basic search

You may start your research by entering a few keywords within the Quick Search feature available on every page. Quick Search effectively supports the most frequently performed tasks and allows you to search on:

- Related articles by searching specific terms
- Specific titles
- Specific author names
- Specific articles by publication / volume / issue / page
- Images only (e.g. tables, figures, videos)

From the Advanced Search page in the main navigation toolbar, you can restrict your search to a particular subject area, your entitled or favourite sources and date range, or use the Expert search. You may also narrow your search based on the four tabs (Journals, Books, Reference Works and Images).

Review results

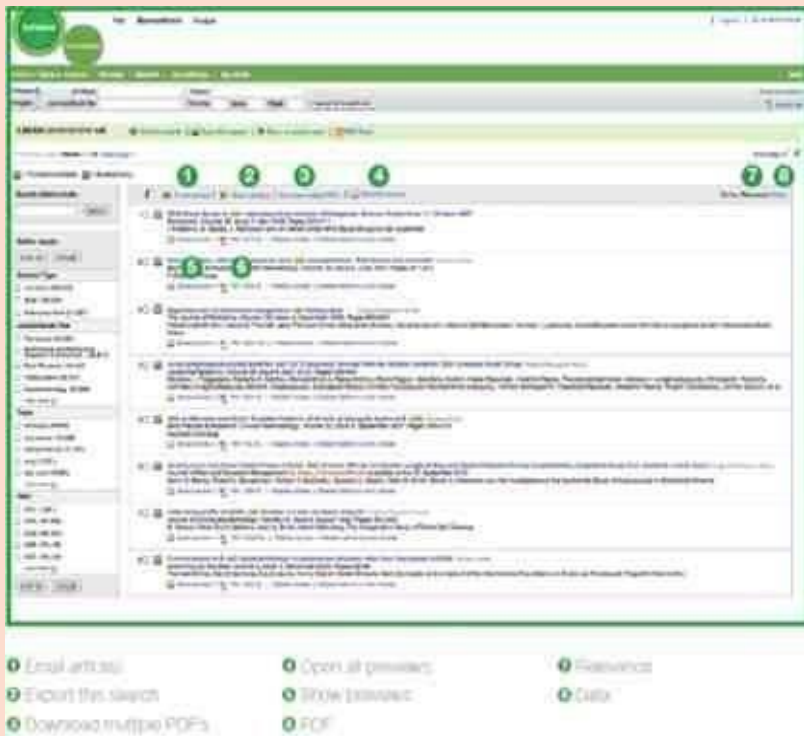

The results list provides the results of your search and gives you the option to view the article in **HTML** (by clicking on the article title) or in **PDF**. By selecting the entitlement icons you can easily verify whether the article's full-text or just its abstract is available to you. The abstract can be viewed through **Show preview** or by **Open all previews**.

Graphical abstracts are by default available from the results list.

You have the option to sort the results list by either **Relevance**(the default) or **Date**. With results lists:

- Articles can be **emailed**
- Citations (and abstracts) can be **exported** in various formats

Up to 20 PDF articles may be downloaded simultaneously by using the **Download multiple PDFs** feature which also allows you to name them automatically or customize to your own file-naming convention

View your results in detail

The Science Direct article *tabular view* provides immediate access to article areas of greatest interest, whether it's the full **Article** itself, its **Figures and Tables** or the **References** of the article. As with the results list, you may also **Email the article**, **Export citations** or go to the **PDF**.

The screenshot shows a scientific article page with a navigation bar at the top. Below the navigation bar, there are four numbered callouts: 1 points to the 'PDF' icon, 2 points to the 'Export options' menu, 3 points to the 'References' section, and 4 points to the 'Full article' section. The main content area contains the title of the article, a short abstract, and a list of references. The right sidebar contains a 'Check for updates' section and a 'Check for updates' section.

- 1 PDF
- 2 Export options
- 3 References
- 4 Full article

Engineering Databases

ASME Digital Collection

American Society of Mechanical Engineers (ASME) is the premier professional membership organization for more than 127,000 mechanical engineers and associated members worldwide. ASME also conducts one of the world's largest technical publishing operations in the world. Our subscription comprises 27 Mechanical Engineering Journals, with archiving since year 2000.

URL: <http://asmedigitalcollection.asme.org/>

DELNET has been established with the prime objective of promoting resource sharing among the libraries by developing a network of libraries. It aims to collect, store, and disseminate information besides offering computerized services to users, coordinating efforts for suitable collection development, and reducing unnecessary duplication wherever possible.

HOW TO SEARCH?

Step 1

Go to DELNET Website at <https://delnet.in/>

Step 2 Click onto **Resources** and DELNET ONLINE option.

Step 3 A new Web page appears, prompting you to provide the USER NAME and the PASSWORD.

Login: mhsvkm

Password: svkm6026

Step 4 Click on the START button, which appears on the same page. Just wait for a few seconds to get the authentication done.

Step 5 A new Web page appears, showing linkages to DELNET Databases. On the left-hand frame, you get the abbreviations of the Participating Libraries who have contributed the records to various databases. This is a pointer for giving the full name of the Institutions wherein the material (Books, Journals, etc.) are physically available. These abbreviations are being represented in the Location Code/Library Holdings of the various records in the databases.

Step 6 FOR SEARCHING BOOK CATALOGUES, JOURNALS, ETC. If you want to search for any specific book, kindly double click the Union Catalogue of Books. This database currently has bibliographic information of more than 1.2 Crore books. These books are available in different Member-Libraries all across the country and outside India also. The database size of these Union

Catalogues grows with each passing day since more and more records of Member Libraries are being merged into the system on a daily basis.

Step 7 As you click the Union Catalogue of Books, a window appears displaying: "You are Accessing-Union Catalogue of Books" with the searching options such as Title, Author, Subject, Series, Date of Publication, Place and Publisher, Corporate Body, Locations, etc. Searching can also be done through any of the fields available in a database. The Boolean operators can also be used between the various fields for narrowing down the search hits.

The searching strategies for all the databases are the same. The following is the list of major Union Catalogues, Union Lists, etc. of DELNET.

BOOKS Union Catalogue of Books; E-Books.

JOURNALS Union List of Journals; Union Catalogue of Journals (with Holdings); Articles Database

E-JOURNALS Dental E-journals; Education E-journals; Engineering and Technology E-journals; Management E-journals; Pharmacy E-journals.

Other Online Databases GISTNIC, MEDLINE and other databases of NLM; US Patents: Full Text, Cambridge Dictionary Online, ODLIS: Online Dictionary for Lib & Inf.Science

Science Direct

Engineering & Computer Science:

This database offers the world's most significant 275 full-text Engineering & Computer Science journals published by Elsevier from 2000 to the present.

URL: <http://www.sciencedirect.com/>

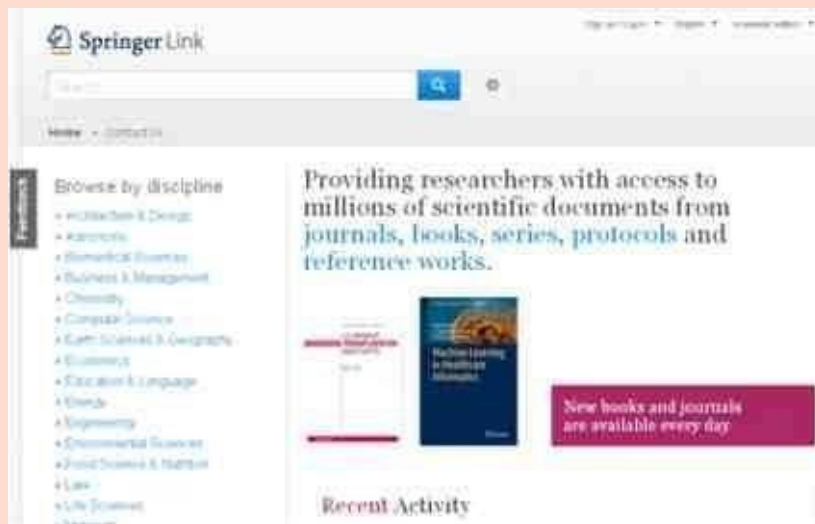

Springer

(Electrical, Electronics & Computer Engineering)

A leading global scientific, technical and medical publisher, providing researchers in academia, scientific institutions and corporate R & D departments with quality content via innovative information products and services.

Our subscription comprises 149 Mechanical engineering Journals with archives since year 2000 onwards.

URL: www.springerlink.com

Research Databases

ISI Emerging Markets offer in-depth coverage for over 100 industries and financials for Listed, De-listed & over 9500 Unlisted/Private Companies.

Research reports from International and Domestic Research and broking houses Delivers News, Company, Industry, Macroeconomics & Financial markets data.

URL:

http://site.securities.com/php/dashboard?&change_selected_countries=1

Accessing ISI Emerging Markets The Navigation and Message area

Important product-related messages are displayed in the area above the navigation bar. The ISI Emerging Markets service offers eight primary categories. These categories are consistent and also comprise the primary navigation bar and will appear on every page. To access information from any of these categories, simply click on the appropriate tab.

EMIS
ECONOMIC INTELLIGENCE SERVICES
A DIVISION OF THE THOMSON REUTERS GROUP

New EMIS User Guide

A Country Outlook: Get an overview of the economy reflecting latest trends that shape the financial landscape: political environment, governmental and financial policies, etc.

B Top Issues: Stay on top of the most important stories of the day, put together by our editors from leading global publications.

C Analytics Research: Efficient quick access to latest research reports, valuable in-depth financial metrics, industry & company intelligence of the respective economy.

D Macro Charts: Displays 2 macroeconomic indicator charts, provided by CEIC Data, a provider of 251 Emerging Markets as well as links to the entire set of macro economic indicators.

E Market Data: This section displays important stock quotes, that provide a quick overview on the financial market of the selected country.

- Country news from Thomson Reuters: Updated at the close of every market day, this section displays the previous day's 10/25, 10/30 & 200 currency exchange rates, if the specific economy.
- Market Indices: A snapshot of Market & Stock Market of the selected economy, obtained directly from Thomson Reuters, and linked to archival information.
- The Market Movers include a listing of the most active and share holders most reported stocks and ETFs, along with display of closing price & volume.

F Top Companies: This newly added section displays top 10 company's revenues based on net profit & financial statements.

G Top Industries: Displays the 10 leading industries of each country selected by our local experts.

H Sub-sections:

- Country Home Page: This link allows you to navigate from any other page to the Country Home Page.
- MyContent: Define and give public access, restrict, download, companies and industries on our customized profile page.
- MyAccount: Choose your default mail page, language support and content language.
- Market Calendar: Calendar of market historical special announcements.

The Company Page

1 **Company Profile:** Access company profiles, containing in-depth information including company description, analysis, financial statements and so on, of over thousands of public and private companies.

2 **Latest Company:** Select recent companies and latest news on the website's listed and unlisted companies.

3 **Analysis, Research & Company:** View the latest analysis and reports from various global & local sources. You can also search for specific reports using the search filter.

4 **Companies by Alphabetical Listing:** Click on a letter or number to locate a company.

5 **Select Companies by Industry:** This quick access to companies, you can search for companies by the industry they belong to.

Company Database

Capitaline is an online database giving financial and other information on more than 55,800+ companies, which includes listed as well as unlisted companies. It provides extensive and accurate data on companies, which runs into over 1500 data fields. The companies are grouped under all major industries from various sectors. A Balance Sheet or P&L can be read with complete schedules or breakups along with different useful tools like; common size, simple growth, CAGR growth, etc. The data format has been created and standardized by keeping in mind the accepted norms & practices. Capitaline provides analyst meet reports AGM reports for more than 200 companies every quarter in text format along with coverage of all corporate announcement on daily basis. IPO data are covered extensively, which include; Issues, Prospectus, Allotment & New Listing. Live News: Market Commentary, Hot Pursuit & Corporate News. Historical coverage: Last 15 to 20 years. To access this database self-registration is required with institute's email ID only.

URL: <https://awsone.capitaline.com/ExternalAccessLogin.html>

Capitaline has main 5 different modules:

- a) Company – To view company level information like; annual financials, interim results, corporate announcements, Share price data etc.
- b) Industry – To view industry aggregate data like; annual financials, interim results also news and sector report or trend.
- c) House – To view business house or group level information like; annual financials, interim results and news.
- d) Peer set – Peer set is nothing but your own list of companies or portfolio which you want to track by analyzing financial performance and price performance.
- e) Screener or Query module – The powerful screener module helps to search companies based on different parameters.

Key Highlights:

Financials: companies 'annual reports are historically (10-15 years) covered. Presenting the financial data in nine formats: Manufacturing, Banking, Finance, Software, Shipping, Hotel, Power, Media & Realty. A Balance Sheet or P&L can be read at different depths as per the latest revised disclosures.

Interim results: (reported, segment wise, consolidated) with footnotes, also current year unaudited / audited figures with comparative changes over previous year's figures. Also important ratios like OPM, NPM and EPS based on the interim /full year results.

Share Price data: Daily, weekly as well as monthly prices (open ,high, low and close) with historical PE & other valuation ratios, market capitalization , number of trades, volume and net turnover, averages, beta analysis and comparable chart for both BSE & NSE.

Corporate Actions & Other News: All corporate announcements, bulletin, notices sent by

the company to the stock exchanges. It covers AGM, Board Meeting, Bonus, Right issues, stock splits etc. also news captions from business dailies on daily basis are covered.

Equity Details: This section tracks the change in capital structure of a company (Equity History, Bonus History etc.) along with Share Holding Pattern & holder names & % holdings and MF holdings.

Technical & Statistical tools: Capitaline has many useful tools for the purpose of technical analysis of a stock. Also a strong statistical tool with all required functions is available in the query module.

Industry / Sector: Industry Report on important Sectors with sector trends updated on regular basis. Industry wise comparable aggregate data. Industry Scoreboard with Full Year/quarterly financials & share price data, industry P/E ratios.

Screeener (screeener module): Screeener is a powerful query module that helps user to filter the companies based on certain criteria. It facilitates search based on financials, non-financial and other general information.

Peer-set: User can create own peer-set, which contains user own, set of companies. Also get the aggregate and comparative financials for the respective peer companies.

Currency Converter: User can view financials changing the currency and units.

Additions, deletions & updatedness

The Prowess database keeps expanding in terms of the total number of companies covered. There are many reasons why more and more companies will get added to the database. And, there are good reasons why there will be very few deletions. As a result, on a net basis, the count of companies in the Prowess database will keep rising. Companies keep getting added because new companies are formed regularly. As information on such new companies become available, they get added into the Prowess database. A company gets added into the Prowess database only if it meets the conditions of availability of the audited and complete Annual Report or the availability of the interim financial statements of listed companies.

EPWRF India Time Series

The **EPWRF India Times Series** (EPWRFITS), an interactive online database launched in January 2011, is an initiative taken by the EPW Research Foundation (EPWRF) to provide credible time series data facilitating research across various sectors of the Indian Economy.

Perceiving the indispensable role and need for authentic-time series data in socio-economic research and analysis, the EPW Research Foundation has built the **EPWRF India Time Series** based on the core values - ACCURACY, TIMELINESS and COMPLETENESS.

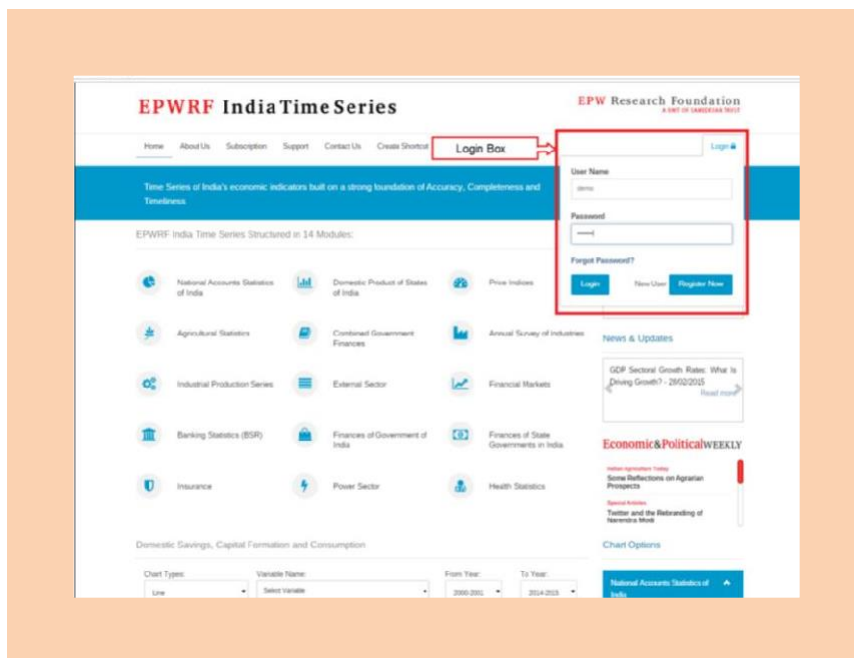

EPWRF India Time Series It is a unique online database with its comprehensive coverage of the Indian Economy for a reasonably long time, and it comprises over 30,000 variables capsuled in 16 modules. The database tries to provide in continuous time series from 1950 depending on the availability.

The database is well accepted by the research community in India as well as abroad. Major subscribers include all Indian Council of Social Science Research (ICSSR) institutes, several Universities (central, state and private), IIMs, IITs, Banks and top-ranked management institutes.

Salient Features

- Time series data
- Comprising major sectors with various periodicities
- Timely Updation of data
- The user-friendly interactive online system
- Ease of identifying variables
- The versatility of data variables/series selection
- Easy to download and export to excel file
- Enhancing Research
- Saves time spent on data compilation
- Plotting of data variables/series
- Availability of 'Meta Data' at a click

The first step is to log in to your account using the home page login section. Please insert your username and password. Click on the **Login** button. For institution type, users are not required to add a username and password.

Select Module from module list.

After login you will get the following screen. You will get module list on the left side of the screen and you can select the module by clicking on browse link. You will get module description on right side of the screen.

Modules

Subscribed Module

- National Accounts Statistics of India
- Domestic Product of States of India
- Price Indices
- Agricultural Statistics
- Combined Government Finances
- Annual Survey of Industries
- Industrial Production Series
- External Sector
- Financial Markets
- Banking Statistics (BSR)
- Finances of Government of India
- Finances of State Governments in India
- Power Sector
- Health Statistics

Other Module

- Insurance

National Accounts Statistics of India

Description:
 The National Accounts Statistics of India (NAS) module presents the latest available data for the period from 1950-51 to 2009-10 (1953-51 to 2011-12 for some characteristics) all as per the new series of national accounts statistics with 2004-05 as the base year. The data will get updated from time to time.

The series presented here covers every segment of the Indian economy as depicted in the CSO's national accounts aggregates. Broadly, it covers the following data sets:

1. National Income and other key related macro-economic aggregates;
2. Sectoral distribution of GDP;
3. Domestic saving by type of institutions (household financial saving by assets); capital formation by type of assets and by institutions and sectors and private final consumption expenditure by objects;
4. Public sector transactions;
5. Consolidated accounts of the nation encompassing expenditure on gross domestic product (GDP), appropriation of national disposable income, financing of gross accumulation, and aspects of external transactions Disaggregated Stateseries Consisting of Outputs, Inputs and GDP by sectors and commodities:

1. input-output relationships by major industry groups;

Select Sub Module from sub module list.

After clicking on browse button you will get the following screen. You will get sub module list on the left side of the screen and you can select the sub module by clicking on browse link. Also you will get module description section on right side of the screen.

Health Statistics

- Demography
- Health Status Indicators
- Health Education Facilities
- Human Resources
- Health Infrastructure
- Health Finance

Click on browse for viewing sub modules (points to Health Finance)

Health Statistics

Description:
 Health module is presented in five major components namely, Demography, Health Status Indicators, Health Infrastructure, Human Resources in Health and Health Education Facilities. Data are culled out from two publications - National Health Profile and Statistical Report of Sample Registration Survey (SRS). However, data on Health Finance are compiled from state finances published in RBI Bulletin. National Health Profile was earlier published as "Health Information of India" from 1996 to 2004 and as "Health Statistics of India" prior to 1996. As the publication has undergone changes over the period, the data provided has also changed over period. Hence, data series pertaining to some variables was discrete and inconsistent. Such variables are highlighted in the respective sections. While the National Health Profile is the major source of data, Statistical Report of SRS is primarily used for data on fertility and mortality indicators. SRS reports have been providing relatively consistent data over a period.

Select variables from the tree view

After clicking on the browse button on the submodule list, you will get the following screen. You will get variables in the tree view on the left side of the screen, and you can expand the nodes as per requirement and select the variables. The variable chosen from the tree view will be displayed in a tab. Select the variables from the tab. Also, select the required parameters. You will get a summary of the selected variables and parameters. You can deselect the variables or parameters by clicking summary variable list. Now Select the nodes and click on "Submit" button.

The screenshot shows a web application interface for selecting variables and parameters. The interface is divided into several sections:

- Variable Tree View:** A tree view on the left showing the hierarchy of variables. The selected path is: Health > Morbidity > Demography > Mortality Indicators.
- Demography Section:** Contains a 'Select Variables' dropdown menu with options: Demography/Mortality Indicators, Persons, Males, Females. Below it is a 'Select Parameters' section with dropdowns for All-India/State, Age Group, Area, and Year. The 'All-India/State' dropdown is set to 'All-India', 'Age Group' to 'Peri-Natal', 'Area' to 'Rural Urban Total', and 'Year' to '1979'. There are 'Select All' and 'Clear All' buttons below the dropdowns.
- Summary of selected variables and parameters:** A section at the bottom displaying the selected variables and parameters. It includes a 'Variable List' and a table of selected variables and parameters.

The 'Summary of selected variables and parameters' section displays the following table:

Variable List	Demography/Mortality Indicators:-	Persons	Males	Females																															
All-India/State	All-India	Andhra Pradesh																																	
Age Group	0-4	1-4	All Ages	Early Neo-Natal	Peri-Natal	Post Neo-Natal	Post-Natal	Still Birth																											
Area	Rural	Urban	Total																																
Year	1979	1980	1981	1982	1983	1984	1985	1986	1987	1988	1989	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013

At the bottom of the interface, there are buttons for 'SUBMIT', 'CHART', 'EXPORT', 'PRINT', and 'SAVE QUERY'.

Result window.

After clicking on the "Submit" button, you will get the following screen.

Law Databases

The main search bar, which remains stationary and available on all pages in HeinOnline, has four search options under separate tabs: full text (including metadata), citation, catalogue, and case law. 3. Click Advanced Search from the Full Text or Catalog search tabs to access additional search fields and the ability to narrow searches by title and date ranges. 4. The options bar on the upper right side of the screen offer access to MyHein and a "What's New" area where users can view recent blog posts, download monthly content release CSVs, and view new content by the library. Users can also connect with HeinOnline via social media and view count information.

Welcome Page: View subscribed collections by both category and name. Perform a full text search, search for a document by citation, and access the HeinOnline catalog or case law. Click search help for quick tips on searching in HeinOnline.

Click the more information link next to any collection to see a brief description of the collection's content or to download a full list of available titles.

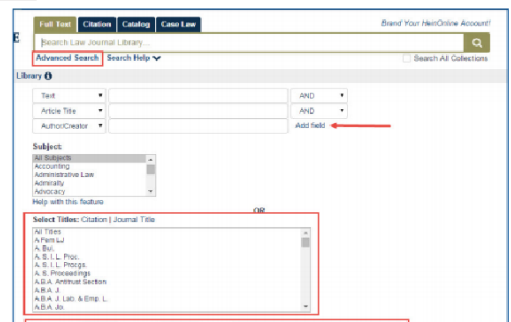

Access MyHein, recent blog posts, the HeinOnline help page and account information from the options bar located on the top right side of the screen.

Full Text Search

The search bar is stationary and available on all pages in HeinOnline. Perform a quick text and metadata search using the Full Text search option. Clicking Advanced Search will expand options to include up to six advanced search fields. Users can also select specific titles and a year range to narrow search parameters even further.

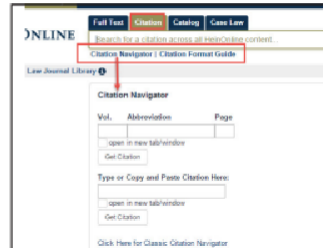

When viewing search results in HeinOnline, matching text pages will be highlighted in yellow. Sort search results by relevance, number of times cited, volume date, and more. Available options, such as MyHein and PDF/Download, are available to the right of the search results, along with cited by and accessed information. Facets to narrow search results are available on the left side of the screen.

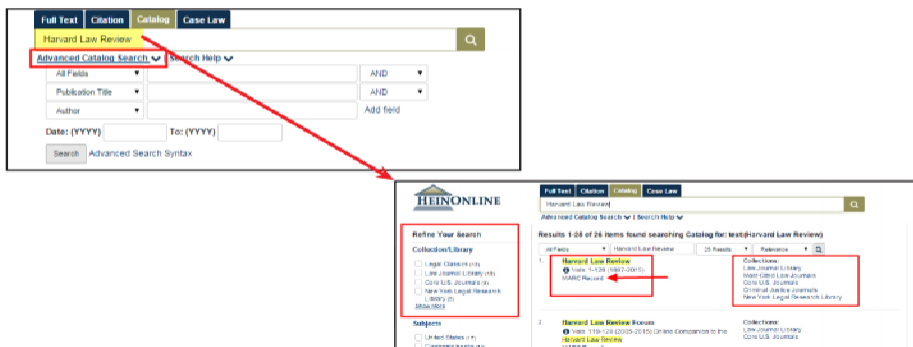

Search by Citation

Use the citation tab and/or citation navigator to access a document by its citation. For a list of citations by title, click [Citation Format Guide](#). Citation formats in HeinOnline are derived from the *Bluebook*, *Prince's Bieber Dictionary of Legal Abbreviations*, and the *Cardiff Index to Legal Abbreviations*.

Search the Catalog

Search the publications by title, author, publisher and more using the Catalog search option. This tool will search across all HeinOnline MARC records. Use the Advanced Search feature to expand multiple fields and refine your search by including a date range. Search results will include publication information, a list of the collections in which the title can be found, and links to more information and MARC records. Narrow search results using the facets on the left side of the screen.
